Foreword

It is with great pride and pleasure that I present this catalogue showcasing products and organisations certified by the Botswana Bureau of Standards (BOBS). The catalogue reflects our continued commitment to promoting quality, competitiveness, consumer protection, and excellence across industries in Botswana and beyond.

The Product and Quality Management Systems certified companies featured herein represent organisations that have successfully met the rigorous requirements of recognised standards through the BOBS certification processes. Their dedication to quality assurance, continual improvement, and customer satisfaction demonstrates a shared commitment to building confidence in products, services, and business operations.

Through our certification services, we continue to support businesses in enhancing operational

efficiency, improving product quality, and fostering trust among consumers and stakeholders.

This catalogue serves not only as a directory of certified products and organisations, but also as a celebration of excellence and compliance with internationally recognised best practices. We commend all certified clients for their commitment to maintaining high standards and contributing to the growth and reputation of Botswana's economy.

We sincerely thank our stakeholders, partners, and clients for their continued trust and support.

Mr Botsile Kebapetse
Managing Director - BOBS

About **BOBS**

BOBS offers technical services in the areas of standards development, sale of standards, testing of goods, calibration and verification of weighing and measuring instruments, weighbridge, enforcement of Compulsory standards as well as a

wide range of training courses, including Quality, Environmental, Occupational Health and Safety and Information Security Management Systems, Root Cause Analysis, Introduction to Standardization, and the Use of Standards in Procurement.

Quality Assurance Through **Product & Quality Management Systems Certification**

The Botswana Bureau of Standards (BOBS) provides Product Certification and Management Systems Certification services to assist organizations in demonstrating that their products, services, and management systems comply with relevant standards.

The BOBS Certification Services has been accredited by SADC Accreditation Service (SADCAS) for Quality Management Systems Certification as a demonstration of its competency in offering auditing and certification on quality management.

BOBS certification enhances customer confidence, facilitates market access, and promotes continuous improvement in product quality, service delivery, and overall organizational performance. A certified system or product can also help businesses expand into international markets by meeting global quality standards.

BOBS Product Certification is offered to organisations that have established, implemented and maintained a quality plan that ensures that manufactured

products conform to specified requirements or relevant Botswana Standards. This certification includes both batch certification and Standards Mark certification. A product certification or standards mark license is valid for three (3) years whereas batch certification is valid for six (6) months or until the batch is no longer available in the market.

BOBS has certified numerous companies across Botswana and the region for both products and management systems, demonstrating commitment to quality, safety and continuous improvement.

BOBS Product Certification covers a wide range of products across sectors such as construction, manufacturing, food and consumables, and textiles. Products certified by BOBS bear the BOBS Certification Mark, providing assurance of quality, safety, and compliance with applicable standards. These certified products are available nationwide and across the region.

GOVERNMENT

The background of the page features a large, stylized image. At the top right, the flag of Botswana (blue, black, and white horizontal stripes) is shown waving on a tall pole. Below the flag, three large, blue-tinted statues of men in suits stand on a tiered pedestal. Behind the statues is a large, solid blue circle. In the foreground, the top of a building with a dome and a globe is visible. The entire image has a blue and white color scheme.
